EL-BEHAIRY ENDORSED BY NEW YORKERS AGAINST GUN VIOLENCE (NYAGV)

Buffalo, NY-(October 18, 2018)- State Senate Candidate (NY-60) Carima El-Beairy has been endorsed by New Yorkers Against Gun Violence

Carima El-Beairy is thrilled to accept the endorsement of **New Yorkers Against Gun Violence (NYAGV)** in her campaign to unseat incumbent Senator Chris Jacobs, and looks forward to working with them to advance rational gun policy in the State Senate.

As a mother of two concerned about the proliferation of mass shootings as well as the continued role of guns in domestic violence and street violence, **El-Beairy** considers rational gun legislation vital to a safe society.

When dealing with an unstable federal administration that is indiscriminately hostile to gun regulations, it is especially important that gun policy on the state level be even more cohesive. NYS has taken strides in regulating these weapons, but there is more work to do. El-Beairy supports the NY SAFE Act and believes state legislators need to address issues such as children's access to guns, the status of federal concealed-carry permits, and the methods by which weapons are trafficked into NYS from other states.

"This is about more than saying no to NRA propaganda," El-Beairy said. "This is about people standing up for the right to be safe in their own communities. Reasonable policy on guns can accomplish that without threatening Second Amendment rights."

Carima El-Beairy grew up in Grand Island, NY and raised her family in the City of Buffalo. She has found success building innovative companies like the P22 type foundry and serving on the boards of numerous non-profit organizations. She has also been involved with Planned Parenthood for nearly two decades, most recently serving as treasurer for the WNY/CNY regions.
